Kevin is extremely detail oriented; he came to my home about a week before doing the job to make sure we were satisfied with the color and design of the materials he would be using. He was very punctual arrived at our home when he said he would. He took the time to explain the entire process to us and what we needed to do once the work was completed.

During the performance of the work he maintained a high level of professionalism and regard for the safety of others. He placed warning signs on both sides of the work area to warn any passersby of the hazards and type of work being performed. He was very meticulous in his clean up of the work area upon completion of the work.

We were extremely satisfied with the quality of the work performed. The driveway and walk stands out and enhances the front of my home. Overall the value of the work performed by Kevin was excellent for the quality of a job well done. We would highly recommend Kevin for the work he does and will certainly be using him for any future projects we may need.

Great service, quick response, and even got out some rust stains that an old planter box had left on the siding. 5 stars, would use again.

We have done our own power washing for many years. On occasion, we have hired a service... But there has been nothing even close to the job done by this company! Kevin was masterful at getting the house to look like new! His power washing equipment is state-of-the-art and Kevin gets fantastic results. We were extremely satisfied and highly recommended this business.

Kevin is extremely professional. He was very informative and provided pros and cons of every step for power washing, sealing the patio pavers.

Did a fantastic job taking care of the backyard. Brought it back to life.

Couldn't be happier with the service provided. They did my entire house. Washed my roof, house, deck, paver driveway and walks as well as my outdoor furniture. Absolutely thrilled with the way it looks now!

When my friend recommended Pressure Wash Long Island for a commercial power wash I was sceptical since I thought that it would be quite expensive but they had very reasonable prices and am happy I got to use them
